BIG PASSENGER BUSINESS

Vanderbilts May Be Getting a Hold on the Wabash-Favorable Comment on the P. & E.

Passenger men from all parts of the country who chance to stop at Indianapolis, without exception speak of passenger business as having been the heaviest in the history of the roads with which they are connected, and distances have not seemingly been considered. In no former year has travel to Pacific coast points been as neavy and through Colorado over sixty thousand people have been carried. To Wisconsin and Michigan pleasure resorts more people have been carried than ever before in any one season. Atlantic City business, notwithstanding the attractions at Buffalo, average well with former years, and th same is true of New England summer resorts. With regular travel and the Sunday excursions, every road has been taxed to furnish cars to handle the traffic. "No matter in what direction we ran an excursion at cheap rates," said a passenger man, "It was well patronized. People seem to have plenty of money and are disposed temperate habits, who can speak, read and write to spend it in travel." Passenger officials will welcome a little rest before win ter tourist business sets in, arrangements for which the north-and-south roads are beginning to make on a more elaborate scale than ever before. The Florida special, inaugurated last winter, encourages establishing similar service to other Southern pleasure resorts. As to California, parties are already arranging for fall and winter trips, and indications are that during the winter months all records for pleasure travel will be excelled.

A Community Interest Plan.

The New York Journal of Commerce says: "It has been learned from an authoritative source that important plans for take orders for the authorized Life of our the practical consolidation of direction o history from "Cradle to Grave;" 15 to 50 orders a include the formation of a new parent company. It will be entirely a financial company, and will be the holder of stock of the subsidiary companies. No name has yet been selected for the proposed parent company, but the 'New York Central seems to be that most generally favored. The exact status of the plans follows: W. K. Vanderbilt has given considerable study to the practical consolidation on the lines proposed, and at his suggestion Edward V. Rossiter, treasurer of the New York Central Railway Company, and H. McK. Twombley, a director, whose opinion is particularly valued by Mr. Vanderbilt, have been some time at work on a skeleton plan. When this has received Mr. Vandertilt's approval it will be worked out in greater detail and be placed formally before the board of directors. It is evident, therefore, that the plan of control can in no measure be accepted as an established WANTED-JAN HONG LOW CO., 226 Indiana | fact, but the information already given is of the coming developments in the community of interest plan of railroad opera-

Directors of the New York Central Railroad, of the Big Four and other Vanderbilt railways met at the Grand Central Station, New York, yesterday to declare dividends. After their adjournment it was announced that the only action taken was the declaration of the regular dividends of the respective companies. Some interest had been aroused in the meeting of the different boards, because of the current recornices and skylights; tin, iron, steel and | port that W. K. Vanderbilt has under consideration the organization of a security holding company to take over enough of the securities of the New York Central Railroad and of other Vanderbilt railways to give the new company absolute control of such companies. None of the directors would talk of this matter after the meeting, saying that they themselves would not know of such a plan, if any, before the

Who Will Get the Road?

Rumors are again current that the Chicago & Eastern Illinois will in the near future be more closely identified with some one of its natural connections. The acquisition of the road is known to be desired by a number of strong railway companies. Prominent among them are the Big Four, the St. Louis Southwestern and the Louisville & Nashville. To either of these roads it would be a valuable piece of property. It would give the Big Four a better entrance than it now possesses, and would let the St. Louis Southwestern or the ing of the stockholders of the Indiana, Decatur | Louisville & Nashville into Chicago under Western Railway Company will be held at favorable conditions. The report of the the office of the company in Indianapolis, Ind., Chicago & Eastern Illinois Railroad for the year just closed shows the company to be in a more prosperous condition than ever before in its history. Wall-street Journal. When the Peoria & Eastern was taken over by the Big Four considerably over \$1,000,000 was advanced to place Peoria & Eastern in satisfactory physical condition. This sum was gradually reduced by payments out of net earnings, and last spring a decision was rendered releasing certain securities applicable to reducing the indebtedness, which, with further payments | gust to the maintenance of way departfrom net income, has been absolutely extinguished. We are informed that the line between Peoria and Indianapolis is in excellent condition. This is the most important part of Peoria & Eastern, because in Cleveland yesterday to attend the funthis division gives the Big Four an entrance into Peoria.
